INNOVATION AT THE HEART OF WIRQUIN'S DNA

Innovation is at the heart of all projects undertaken by Wirquin. Many of our products have gone on to win numerous awards, become best sellers, and are often imitated by competition.

The history of Wirquin is that of creation, forward thinking, development, innovation but all of this would not be enough without the solid foundation of committed people behind the brand.

ABOUT US

AN INNOVATIVE, FAMILY OWNED INTERNATIONAL GROUP WITH OVER 47 YEARS OF EXPERTISE IN PLUMBING AND SANITARYWARE.

Innovation has always been key to our group's growth with a focus on exploration, invention and progress. This process was sparked by its founder's inspirational energy. In the late 60' Henry Wirquin et Daniel Le Coënt had the innovative idea of manufacturing plastic flushing mechanisms : the breakthrough for this trailblazing concept came in 1972 with the opening of a production site in Carquefou on the outskirts of Nantes in France.

The Wirquin company was set up in 1977 and ever since Daniel Le Coënt's creativity has driven it, enabling it to continually progress both in France and around the world. This upward trajectory continues today thanks to our culture of innovation and the expertise of our 1,400 talents, our 5 factories and 10 subsidiaries. Today Wirquin's innovative award winning products are sold in more than 50 countries worldwide.

In 2017, Daniel Le Coënt handed over the company to his 3 sons Anthony, Grégory and Gwenhael. Since 2018, Grégory Le Coënt is managing the Wirquin Group, ensuring the continuity of the company's development.

SANITARY EQUIPMENT MANUFACTURER

Based in Thorne near Doncaster, Wirquin Ltd operates from a 54,000 sqft warehouse facility allowing a strong stock portfolio across our wide range of products

UK - WIRQUIN LTD

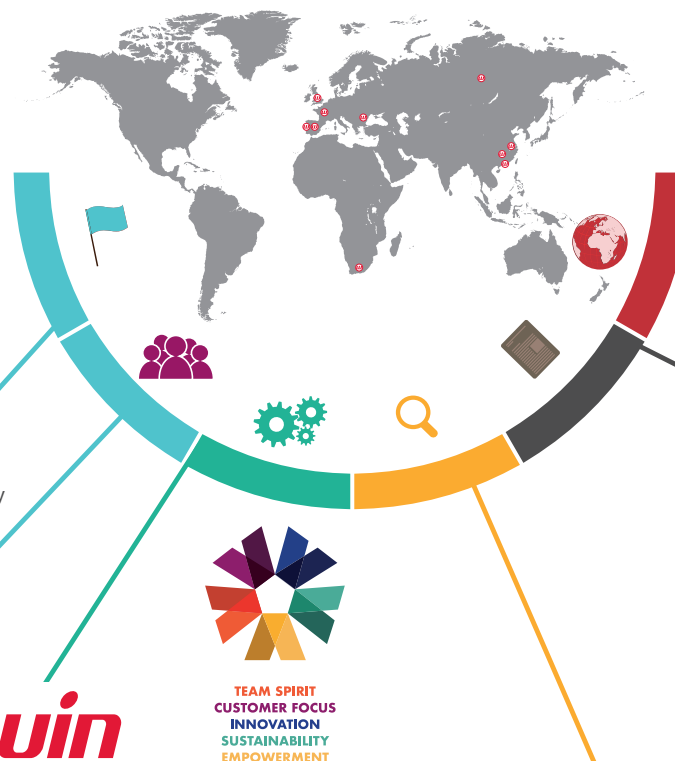

Wirquin Celmac produces over one million toilet seats per year. Celmac has produced toilet seats since 1890 and is historically renowned for the 1930s black crescent school seat with the gap in the front (Crescent) as well as for setting the British Standard with the BS1254 Type 1 (Sonata) and the BS1254 Type 2 (Emerald) which are still manufactured today. Alongside the more traditional designs, Celmac also offers contemporary seat designs with a choice of hinge types to suit all requirements whether it be plastic, stainless steel, top fix, quick release, soft close and so on.

CELMAC MACDEE

Wirquin Macdee provides installers with a wide range of flushing mechanisms, frames, cisterns, wastes, traps, connectors, wetroom solutions and accessories. It's world renowned products are designed and produced with the installer and end user in mind - ensuring they are quick and easy to install, cost effective, robust, reliable and guaranteed to last.

A full range of flushing valves, inlet valves, siphons and kits are WRAS approved and meet, if not exceed, British Standards and customers' requirements to save water and money.

TRUSTED BRANDS

10 subsidiaries of which 5 factories
Commercial presence in 60 countries
1400 employees
5 130 € million turnover in 2019
percent of annual turnover invested in research and development

INNOVATIONS & QUALITY

Inventors of the dual flush toilet mechanism, our history has been built on the creative force of ideas.

Building on this tradition of creativity, we are committed to a world where hygiene and health are accessible to all, while helping to fight against the climate emergency.

Already committed to ensuring that our activity has a positive impact on the environment, we are accelerating on this path.

Responsible development, in harmony with a corporate citizen approach, will be a lever for innovation, progress and profitable growth. We want to be proud of our development.

Quality

Because Wirquin is committed to quality, our products and customer relations are made to last.

With thorough product testing being critical to ensure problem-free installation and use, Wirquin recently invested in a 100m2 new laboratory with a team of 12 technicians.

Wirquin products come with a:

- > 2-year
- > 5-year
- > or 10-year guarantee

WIRQUIN Ltd Has been certified ISO9001 for more than 15 years

Through rigorous analysis of our management system, this approach ensures the quality of the processes we have implemented. The objective of ISO9001 is to increase customer satisfaction, enabling us to provide a level of quality that corresponds to their needs and requirements.

Celebrating our fourth consecutive win at the Kitchen, Bedroom & Bathroom conference for innovation in 2020.

ENVIRONMENTAL & CORPORATE

Our mission

PROVIDE SMART AND SUSTAINABLE SOLUTIONS FOR BETTER LIVING.

Our strength lies in our ability to anticipate customers' requirements and create innovative plumbing solutions and sanitaryware that make users' lives easier and help professionals and installers work more effectively. Our innovations, our products, our services, our solutions are designed to satisfy our customers, improve comfort & hygiene but also limit our environmental impact.

Smart For Good

Our promise

At WIRQUIN, we are creators of products and solutions directly inspired by daily experience in the bathroom and the kitchen: what do you need? What are you missing? Whether you are a user, installer, DIYer or professional...

We observe you and imagine these details that change everything! Our ingenuity combined with our common sense allows us to see things differently and imagine the products of tomorrow.

WIRQUIN products are designed to improve your life: maximize ease of use, save space, minimize installation time and maintenance, and thus promote access to comfort and hygiene. But they are also designed to save resources and reduce our ecological footprint.

HOW TO SELECT YOUR PERFECT WIRQUIN TOILET SEAT

1 - APPLICATION

	Application	Assets
THERMOSET	 HIGH TRAFFIC  PUBLIC PLACES  COST EFFECTIVE  EVERYDAY USE	Hygienic: Naturally anti-bacterial Scratch, UV & chemical resistant Resilient: Extremely strong & durable
THERMOPLASTIC	 HIGH TRAFFIC  COST EFFECTIVE  EVERYDAY USE	Shatterproof 100% recyclable
MOULDWOOD	 EVERYDAY USE	Heavy weight Gloss finish

2 - PAN SHAPE AND SIZE

> IDENTIFY YOUR PAN SHAPE

Traditional

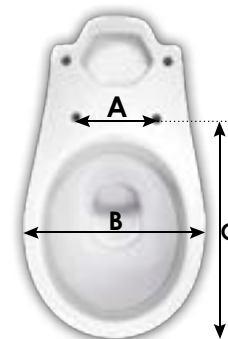

D-Shape

Bespoke

> CHECK DIMENSIONS OF THE SEAT AND PAN

A: Distance between the middle of the 2 holes in the pan

B: Width of the pan

C: Projection from the middle of the 2 holes up to the front of the pan.

3 - HINGE TYPE

BOTTOM FIX

Bottom fixing is a traditional type of fitting where the underside of the mounting holes are accessible to allow the tightening of the hinge fixings.

TOP FIX

Top fixing is required when there is a limited/no access to the underside of the hinge mounting holes (blind hole pans).

QUICK RELEASE

Quick release for easy removal of the seat without tools, enabling thorough cleaning for maximum hygiene

SOFT CLOSE

Soft close incorporating specialist dampers for a gentle, quiet closing action, offering added safety. No more trapped fingers.

LOCK PLUS

Lock + is a clever innovation that stops seat movement by filling the gap between the bolt and the pan. Lock plus is included as standard with the Modufix range.

FLUSH VALVE NO TOUCH FLUSHING MECHANISM

*Flush & Inlet Valve

Description	TOUCHLESS FLUSH VALVE & SENSOR	TOUCHLESS FLUSHING KIT WITH JOLLYFILL AIR TELESCOPIC INLET VALVE
Reference	10950189	10950190
EAN code	6425366005713	6425366005720
Packaging	Box	Box
Multiples / Pack	8 per outer/160 per pallet	6 per outer/120 per pallet
Suitable cistern height (mm)	320 to 420mm	320 to 420mm
Button diameter	38 to 45 mm	38 to 45mm
Cable length	300 mm	300 mm
Main characteristics	Battery Operated (4 x AA) Touchless infrared variable flushing valve, Flush rate of 2.2L/s, -Suitable for 1.5" or 2" mechanism outlet. Suitable for ceramic cisterns.	Battery Operated (4 x AA) Touchless infrared variable flushing valve, -Flush rate of 2.2L/s, -Suitable for 1.5" or 2" mechanism outlet, -Adjustable Jollyfill Air telescopic, delayed action, inlet valve. Suitable for ceramic cisterns.
Contents	1 x Eco stop flushing valve and sensor button 1 x Close coupling washer Bolted close kit	1 x Eco stop flushing valve and sensor button 1 x Jollyfill Air brass bottom entry inlet valve 1 x Close coupling washer Bolted close kit

100% HYGIENIC

- Touchless infrared detection button

WATER SAVING

- Water Volume Control

QUICK AND EASY TO INSTALL AND MAINTAIN: NO HEIGHT ADJUSTMENT COMPENSATES MISALIGNMENT BETWEEN LID HOLE AND TANK

- Cable operated system

DESIGN AND SECURITY

- Button IR detection or manual activation if needed

PROVEN PERFORMANCE

- Endurance tested to 200,000 flush cycles.

FLUSH VALVES - CABLE OPERATED

10 YEARS
GUARANTEE

FLUSH VALVES - PNEUMATIC OPERATED

- ▶ Water saving dual flushing valve
- ▶ Adjustable Full and part flush volume settings
- ▶ Adjustable internal overflow, making it ideal for both new and retrofit installations
- ▶ Removable top for easy cleaning and replacement
- ▶ Flushpipe stops on the base for correct installation
- ▶ Easy clean seal for quick maintenance
- ▶ Suitable for use with our Pneu-Compact Cisterns
- ▶ WRAS approved

NOTE: For internal overflow measure from the base of the cistern to the waterline and add 1", ensuring that the measurement is a minimum of 10mm below any aperture in the cistern to decide what height siphon is required for the installation.

- ▶ Ideal for use in standard size cisterns
- ▶ Metro Rapid has an easy to remove upper section allowing easy maintenance / replacement without the need to remove the cistern
- ▶ Flush volumes can be varied between 6/7/9 litres making it suitable for replacement installations
- ▶ All siphons come complete with siphon backnut, coupling nut, sealing washer and low level flush pipe seal as standard
- ▶ Internal overflow

- ▶ Ideal for use with compact narrow cisterns where space may be an issue
- ▶ Metro Rapid has an easy to remove upper section allowing easy maintenance / replacement without the need to remove the cistern
- ▶ All siphons supplied complete with siphon backnut, coupling nut, sealing washer and low level flush pipe seal as standard
- ▶ Internal overflow

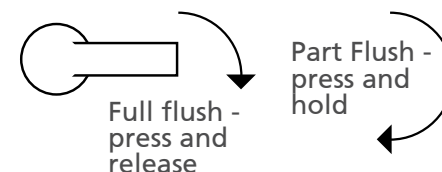

- ▶ Square shaped siphon is ideal for installation in narrow yet deep cisterns
- ▶ Metro Rapid has an easy to remove upper section allowing easy maintenance / replacement without the need to remove the cistern
- ▶ All siphons come complete with siphon backnut, coupling nut, sealing washer and low level flush pipe seal as standard
- ▶ Internal overflow

- ▶ Well suited for installation in slimline cisterns
- ▶ Metro Rapid has an easy to remove upper section allowing easy maintenance / replacement without the need to remove the cistern
- ▶ All siphons come complete with siphon backnut, coupling nut, sealing washer and low level flush pipe seal as standard
- ▶ Internal overflow

SIPHONS

- ▶ The Metro range is a well established siphon offering a high level of reliability
- ▶ On the Metro, flush volume can be varied between 6/7/9 litres, making it suitable for replacement installations
- ▶ All siphons come complete with siphon backnut, coupling nut, sealing washer and low level flush pipe seal as standard
- ▶ Complete with internal overflow
- ▶ WRAS approved

Suitable with all Silenta Air inlet valves

URINAL Flushing

URINAL BOWL PIPEWORK (EXCLUDING SPREADERS)

Choosing the correct range for your installation

Cistern Offset

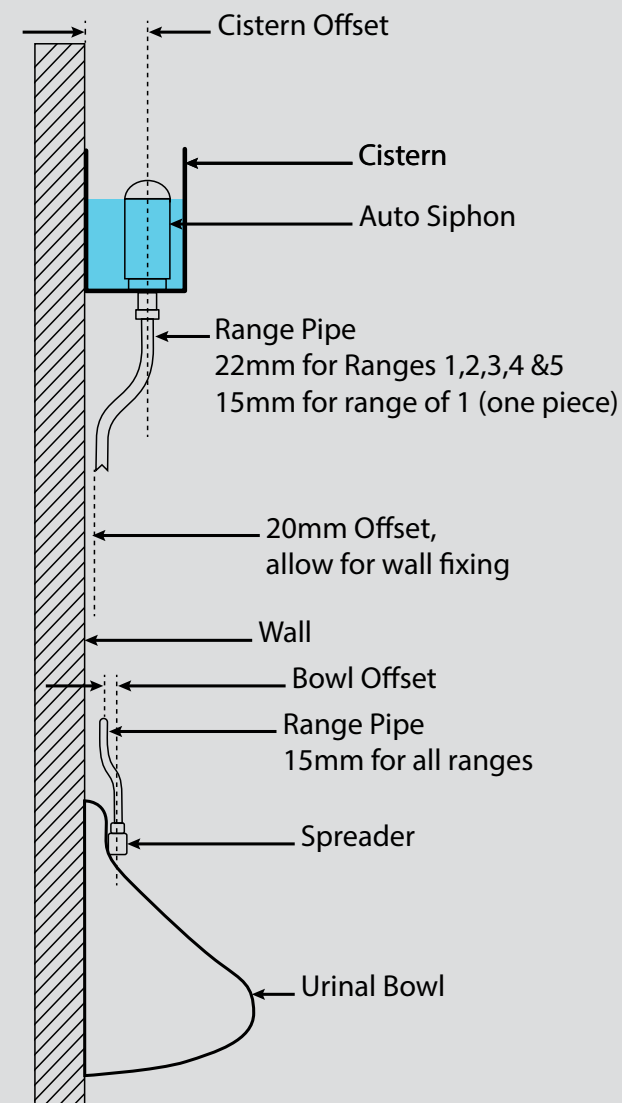

- The cistern offset is the distance from the back of the wall to the centre of the cistern hole. Please note that for any measurements outside of the sizes stated, the nearest one should be used. For example if the measurement is 70mm, the required offset would be 74mm.

Bowl Offset

- The bowl offset is determined by the distance required to allow the 15mm pipe to fit the suitable spreader when fixed to the urinal bowl. Concealed installations will generally have no offsets.

NO. OF BOWLS X OFFSET	74MM CISTERN OFFSET	90MM CISTERN OFFSET
1 X NO OFFSET	UFA11CP	UFA21CP
1 X 23MM OFFSET	UFA12CP	UFA22CP
2 X NO OFFSET	UFB11CP	UFB21CP
2 X 23MM OFFSET	UFB12CP	UFB22CP
3 X NO OFFSET	UFC11CP	UFC21CP
3 X 23MM OFFSET	UFC12CP	UFC22CP
4 X NO OFFSET	-	UFD21CP
4 X 23MM OFFSET	UFD12CP	UFD22CP
Main characteristics	Suitable for use with ceramic and plastic concealed and exposed cisterns

SMART Membrane Technology

- > Cartridge is equipped with silicone membrane which opens when water passes and closes automatically afterwards, ensuring optimal drainage. Its external bi-injected washer guarantees a perfect seal. No more bad smells, no more pipe noises, no more back-siphoning.
- > The independent hair catcher is removable from above, without removing the cartridge for quick and easy cleaning.
- > Removable cartridge for deeper cleaning and direct access to the pipework.
- > No more chemical product needed to clean your shower waste !

**SMART
Membrane
Technology**

Prevents odours.

Eliminates noise in the pipes.

Creates natural ventilation in the pipes and prevents back-siphoning.

> EXTRA COMPACT:

Thanks to its small footprint, SLIM+ is ideal for low profile shower trays

> No smell guarantee:

The cartridge with silicone membrane creates a perfect barrier against bad smells

> Easy to CLEAN:

Easy cleaning from above thanks to the independent hair catcher and removable cartridge for even deeper cleaning

> NO LEAKS:

Bi-injected washer under the tray for installation to guarantee no leaks

Eco designed, SLIM+ contributes to preserving natural resources by fighting against leaks and encouraging smart cleaning without the use of chemical products. Thanks to its compactness the shower waste uses 30% less plastic compared to the first Slim generation. SLIM+ is manufactured in France with a new generation press that consumes 50% less electricity, packaged in the smallest recyclable cardboard and guaranteed for 10 years

SMART MEMBRANE
TECHNOLOGY

The new generation Wirquin Cartridge replaces the traditional water seal. Patented, it is equipped with a new silicone membrane.

> **NO SMELLS:** the cartridge is equipped with a silicone membrane which opens when water passes and closes automatically afterwards. Its external bi-injected washer guarantees a perfect seal. No more bad smells, no more pipe noises, no more back-siphoning.

> **EASY TO CLEAN:** the membrane cartridge and plug are removable for quick and easy cleaning with soap and water and direct access to the pipework. It will also block insects.

A perfect seal without the need for washers.

› **TELESCOPIC:** Making it easy to install with existing pipework.

› **PUSH-FIT FUNCTION:**
Rapid installation.

› **EASY TO CLEAN:**
Simple rotation of the base.

SENZO

WATERLESS MEMBRANE TRAP **SENZO**

Description	SENZO WITH 90° ELBOW	SENZO FOR PEDASTAL INSTALLATION
Reference	31560006	30717469*
EAN code	3375537160167	3375537174669
Packaging	Bag	Bag
Multiple / Pack	55 per outer / 1100 per pallet	35 per outer / 1400 per pallet
Flow rate in l/mn (Under 15mm of water)	38 L/mn	62 L/mn (70 L/mn in vertical position)

► Available in 1 1/2" - see page 128. *See Spares & Accessories section for adaptor

► Already have ABS pipe installed? 31560002 can also be used with ABS pipe using a solvent weld adaptor 39452002.
NB: The adaptor is not to be solvent welded to the Senzo, only the ABS pipe

► **FLEXIBLE:**
Easy to install with no effort - push fit.

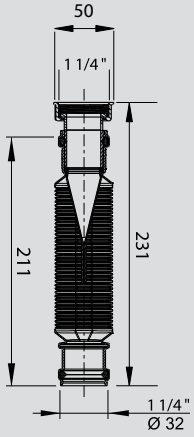

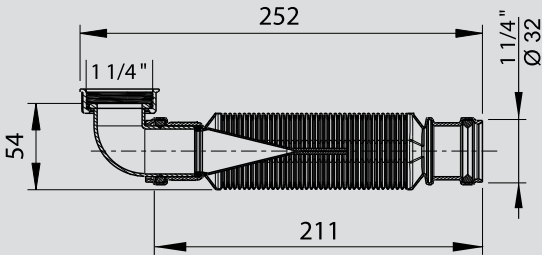

► **WATERLESS SILICONE MEMBRANE TRAP:**
No smell guaranteed.

► **ULTRA COMPACT:**
Only 54mm in height with 90 degree elbow.

► **CAN BE INSTALLED VERTICALLY:**
For pedestal installations.

MAGICFLEX®

PIPE CONNECTORS

MAGICFLEX® THE FLEXIBLE PIPE CONNECTOR

› AVAILABLE IN SEVERAL VERSIONS:

1 1/2" and 1 1/4" solvent weld: Female-Female.

- › NO MORE ANGLE CALCULATIONS: Thanks to its flexible structure, it can take on the desired angle from 0° to 180° and on two different levels in the space available.
- › IT CAN COMPENSATE FOR MISALIGNMENT BETWEEN TWO PIPES: It can be compressed for installation on pipes already in place, or in places with difficult access. Its flexible body absorbs contraction and expansion.
- › MANUFACTURED IN PVC: Magicflex® connectors can resist detergents (bleach, washing-up liquid, washing powder, drain unblocker, etc.)
- › THE SAME GREY COLOUR AS USED IN PVC WASTE SYSTEMS: It can be unobtrusively fitted into the installation.
